The AMT Certification Training was awesome! You are sublime!! Thank you so much for your inspiration, graciousness, and generosity. This training was so much more than expected! I loved experiencing the movement class... and how you provided explicit examples, scenarios and suggestions... I also loved how you... merged the movement training with behavioral training using positive support strategies. "I have been doing AMT with the middle and high school kids for summer schools with the whole group together (with all the aides and teacher participating) and they LOVE it! It's fun to see all the faces light up when I walk into the room because they know we're going to have fun! But it really melts my heart when I see the 2 high school severely autistic twins actually doing the moves in their way and smiling."

"Joanne Lara is a true expert in the field of autism. She has a remarkable knowledge, education and experience base from which she has developed and created Autism Movement Therapy as a new conceptual practice. I attended a workshop with her in Chicago, Illinois in March 2010 where I was able to see Joanne fully engage young autistic students. Her rapport and professionalism with parents is also highly noteworthy. I highly recommend both Joanne Lara and Autism Movement Therapy."
